CITY DEDICATED RIGHT-OF-WAY

Property Owner's Responsibility: Property owner does NOT retain ownership of Right-of-Way area adjacent to their property but is required to maintain upkeep, i.e., mow grass, trim trees, install/repair sidewalk, remove snow from sidewalk, etc.

City's Responsibility: Street pavement and curb (if any) including snow removal, berm (if no curbs), storm and sanitary sewer mains located in the public right-of-way or City accepted easements, sanitary sewer connections from the main to the street right-of-way line/property line, water main, road side ditches, traffic control devices, etc.

EASEMENTS

Easements established within or through any private property are specifically designed for City access to any storm sewer, sanitary sewer, drainage or water courses in the event maintenance or repairs are required. The property owner maintains the ownership of the property and is responsible for all tree and bush pruning/trimming and is required to assure that no adjoining foliage including trees and other debris does not enter and obstruct these systems. The City of North Ridgeville will assure the flow of a ditch is

maintained/repaired due to natural silt build up as necessary. IF NO EASEMENT IS ESTABLISHED AND RECORDED, THE PROPERTY OWNER IS RESPONSIBLE FOR ALL MAINTENANCE AND REPAIRS.

For questions concerning the existence, width, type of easement, or for any other questions regarding easements or right-of-ways within the City of North Ridgeville, please contact the Engineering Department.

GENERAL

Yard Grade changes require approval by the Engineering Department. Please contact the Engineering Department at (440) 353-0842 before attempting any yard grade change either by adding to or taking from the existing grade in order to ensure that proper drainage can be maintained and localized flooding does not occur.

Bare Ground areas must be seeded within 21 days of grade approval.

Down Spouts must drain to splash blocks and cannot be directly connected to a storm sewer.

BACKFLOW PREVENTION REQUIREMENTS

Your private irrigation system or swimming pool is required to be fitted with an ASSE 1020 or 1013 Backflow Prevention Device that *must be tested at the time your system is installed and annually by June 15, even if the system is not in use.* A state certified person must test backflow devices. Most local plumbers have personnel who can perform this test if your contractor has no one certified on staff. Please obtain a copy of this completed test for your records and submit a copy to the Engineering Department. This is not the contractor's responsibility; however, some will submit the test to the City on your behalf. To be safe, please confirm with the Engineering Department that this has been done.

When choosing a contractor, be sure they are familiar with these backflow prevention requirements before signing an agreement. Also, for your protection, verify through the Building Department at (440) 353-0822 that your contractor is currently registered with the City before agreeing to any work. The Backflow Prevention Program, as described by Ohio Administrative Code 3745-95-02(a) and North Ridgeville Ordinance 1046.22, can be found online on the City's website at nridgeville.org. If you have any questions regarding backflow prevention, please contact the Engineering Department at (440) 353-0842.

If you do not receive your bill by the 8th or 9th of the month, please call the Department of Utilities for the amount of your bill and the due date. Full payment must be made or received by the due date in order to avoid a 10% penalty on your current water and/or sewer charges. Failure to receive bill does not waive penalty. Refuse is billed at a flat monthly rate of \$20.85 (effective 3-1-2017). There is also a Fuel Recovery Fee associated with the refuse collection portion of your bill, which is calculated based on the EIA/DOE retail price for diesel fuel for the Midwest Region on the first Monday of each calendar quarter. Water is billed according to the usage on your water meter and customers must pay a minimum of \$16.36 for 400 cubic feet of water. Sewer is calculated based on your water consumption and a base charge of \$9.00 will be charged each month regardless of usage. If your home will be vacant and you do not want to pay for the minimum billing amounts and refuse as mentioned above, you may have your water turned off until you are ready for service. A \$10.00 fee will be charged to turn the water back on. Water and Sewer rates are available online or at the Department of Utilities upon request.

SEWER DEDUCT METER (pool, irrigation system, etc.): This is an additional meter for outside water usage, allowing the customer to pay for water that is used outside without paying for the sanitary sewer usage. Sewer Deduct Meter installation information is available at the Department of Utilities.

PAYMENTS: Payments can be mailed, paid at the Department of Utilities, at the drive-up window located on the north side of City Hall, placed in the night depository located next to the drive-up window or paid at several local banks. The refuse discount is \$1.00 off of the current regular residential rate. There is also an additional discount of \$1.00 off of the refuse rate for senior citizens already receiving the refuse discount that are qualified for the Homestead Exemption through the Lorain County Auditor’s Office.
