Meeting was called to order at 7:00PM. Robert Knopf welcomed guests and explained the interaction policy. Amy Haven read minutes from 09/24/08 meeting. Minutes were approved by committee.

The committee shared community feedback of vision statements and eliminated vision statement #2 from the list. 1 to 2 vision statements per meeting will be voted off the list.

Review of 1997 Master Plan description and location for town center were discussed. Public Sector Solutions provided visual aids and material for members to review in regards to town center and gateways. Co-Chair, Andy Young opened the floor to audience participation. Five guests commented their views and ideas. It was decided that we could possibly have two separate town centers, one for community and one for the municipal district. Each committee member was asked to define their ideas for town center.

Community Gateways were briefly discussed. Audience participation was opened and two guests commented on their views and ideas. It was decided to re-exam gateway entry signs and identify where primary and secondary locations should be.

In order to create more public awareness, it was suggested by Jane Campbell to put a link for Master Plan information on the North Ridgeville's website.
