

It's time for our Electric Anniversary Opt-Out mailer.

Every three years NOPEC is required by the PUCO to give all of our customers an opportunity to opt-out or remain with a NOPEC/FES product. Over the last 15 years, NOPEC has saved our customers nearly \$250 million in electric savings. In addition, we have given back an additional 1% savings to our customers since 2009, totaling nearly \$25 million.

Rescission time

Your utility (CEI or Ohio Edison) will send a postcard/letter confirming that you have chosen NOPEC/FES as your supplier. If you decide you do not want to be a NOPEC customer, this allows you 7 calendar days to change your mind.

To stay with NOPEC, simply do nothing and throw the letter out.
