

Sign Permit Application

BUILDING DIVISION

PERMIT REQUIRED

Permits are required to install or structurally alter any sign. Each application shall be accompanied by:

- Scaled drawings depicting the position of the sign in relation to any buildings and structures on the site and adjacent sites and adjacent streets or drives;
- Scaled drawings, plans and specifications, including method of construction and attachment of the sign to the building or ground; and
- The method of illumination, if applicable. Note: Illuminated signs require a separate electrical permit.

See fees listed on the Commercial Building Permit Fee Sheet. All contractors must be registered with the Building Division for the current year.
