President DeVries opened the lobby session. He asked anyone that would like to speak to come to the podium and state their name and address for the record. He further added each person will be given three minutes to speak. He requested anyone that wished to speak to fill out a lobby sheet located in the back of the room.

Thomas Ashton, 9100 Handyside Drive: stated his road was paved last year, but now there is standing water as he is the lowest home on the street. His yard has consistent standing water when it rains and collects algae and bugs. He was told drainage would be put on his side within a month and that was told to him in July. He has yet to hear anything in regard to his issue. He is paving his driveway and can only do half of it because he does not want to have to tear it up if drainage is put in.

President DeVries stated Council will follow up with his complaint and reach out to Mr. Ashton.

Louise Myles, 37797 Avalon Drive: stated she is through the Avalon intersection two to four times a day and never experienced a traffic issue. She felt that instead of a roundabout, a traffic light should be installed instead. She stated this impacts her.

President DeVries thanked her for her comments and noted public comment will be had in the future.

Engineer Rodriguez stated a study was done at this intersection and there were a lot of traffic accidents in this area. He recalled 15 on the Avon side and 15 on the North Ridgeville side. He also stated a traffic study was done and the traffic light would cost almost \$1 million more.

Ms. Myles stated she never witnessed an accident at that intersection.

Engineer Rodriguez stated the police reports support there has been accidents.

President DeVries stated he was very concerned when he read the report showing all the accidents. He noted the main objective is safety and efficiency moving through the City. President DeVries stated he would provide Ms. Myles a copy of the traffic accidents in the area.

Gary Schein, 34893 Highland Drive: stated flooding is an ongoing issue in his area. He asked if there is a plan to fix the problem. Mr. Schein stated it impacts about five streets in his area. Mr. Schein noted due to all the flooding, they lost their insurance, but now have insurance.

President DeVries stated the City has been working to improve flooding issues. He stated he would have someone reach out from the street department to address a plan. He asked the Engineer if there were any plans he is aware of.

Engineer Rodriguez stated he was not aware.

Mr. Schein stated his last issue was May 15, 2020. He was unaware of anything done since that date. The ditches in the area need cleaned.

Councilman Boose stated there have been a lot of things done in this area. He noted there is only so much that can be done at one time. There was a retention pond that could have been done inexpensively. The Mills Creek stormwater project is another project happening to address flooding. Building retention ponds helps to slow the water. Councilman Boose reiterated the City is continuing to do things and has done a tremendous amount to prevent flooding. He added that when there is a rain event dropping 2 to 3 inches an hour, there is no system that will work perfectly.

(Councilman Winkel joined the meeting at 7:15 p.m.)

President DeVries thanked the gentleman for his comments and stated he would look into what is being done.

Moved by Boose and seconded by Swenk to give Mr. Schein up to an additional three minutes to speak.

A voice vote was taken and the motion carried.

Yes – 7                      No – 0

Mr. Schein stated it seems as though the City is working through it. He noted that the retention pond was supposed to be put in right behind his house. He stated he spoke to additional land owners who would be interested in adding land.

Councilman Boose stated if there were people that wish to donate land, the City would be interested.

President DeVries asked if there were any additional comments. No discussion was offered.

**ADMINISTRATORS REPORTS:**

**A. Mayor:**

Mayor Corcoran stated there were three pieces of legislation on tonight's agenda under first readings that he would be requesting emergency passage. The first two are T 108-2021 and T 109-2021. These two pieces of legislation pertain to the roundabout project at Stoney Ridge, Avalon and Mills Road. T 108-2021 authorizes the City to prepare and submit an application to participate in the OPWC State Capital Improvement and/or Local Transportation Improvement Programs. T 109-2021 is a cooperative agreement with the City of Avon to construct the roundabout at this intersection that North Ridgeville shares with Avon.

The third piece of legislation is T 105-2021 approving the sale of certain personal property owned by the City. There are two police cars that have been replaced because of high mileage and extensive service records that the City would like to sell at auction.

Mayor Corcoran stated the Service Department is currently working on Emerald Street to prepare the roadway for paving the week of September 13. This is always subject to change depending on weather conditions. Once Emerald Street is complete, the Service Department will move over to the last three streets on this year's list – Broad Blvd., McKinley and Rose. These streets are anticipated to be milled the week of September 20th followed by paving.

Mayor Corcoran stated the Lorain County Public Health will be conducting mosquito spraying throughout the City beginning this evening through Thursday, September 9 (weather permitting). White trucks with Lorain County Public Health decals will be spraying from approximately 8:30 PM until 11:30 PM each evening. The spray used is not harmful to human, animal or plant life. If you have any questions, please contact the Health Department at (440) 322-6367.

Mayor Corcoran stated the City, in cooperation with the North Ridgeville City Schools and Board of Education, will hold a special memorial service on Patriot Day and National Day of Service and Remembrance on Saturday, September 11 at 8:30 AM. The service will be held at the Ranger Stadium. Thank you in advance to our Fire and Police Departments, the VFW,

The net proceeds from the event benefited Canine Superheroes Foundation and North Ridgeville Community Care.

Engineer Rodriguez stated this was just a grant application so the City can apply. The City can deny the funds if that is what it wanted to do. The project is the most ready project and the funds are available after July 2022.

The fire department won't be able to communicate with Ohio State Highway Patrol or the City's police department. He felt that the City might be a guinea pig for a new system.
